"Cherished Words"

Cherished words is a user friendly mobile application that aims to help users get motivated for the day. We offer motivational quotes as well as daily notifications to help users easily access what they want. The application is user friendly and offers the feature in the most convenient way possible. Below is a number of detailed description of the way you can use this application along with screenshots that will help you use the application easily.

Dashboard:

Each button contains a number of quotes you can read in your free times and get motivated. There are 4 sections, click on each button to move to the quotes part.
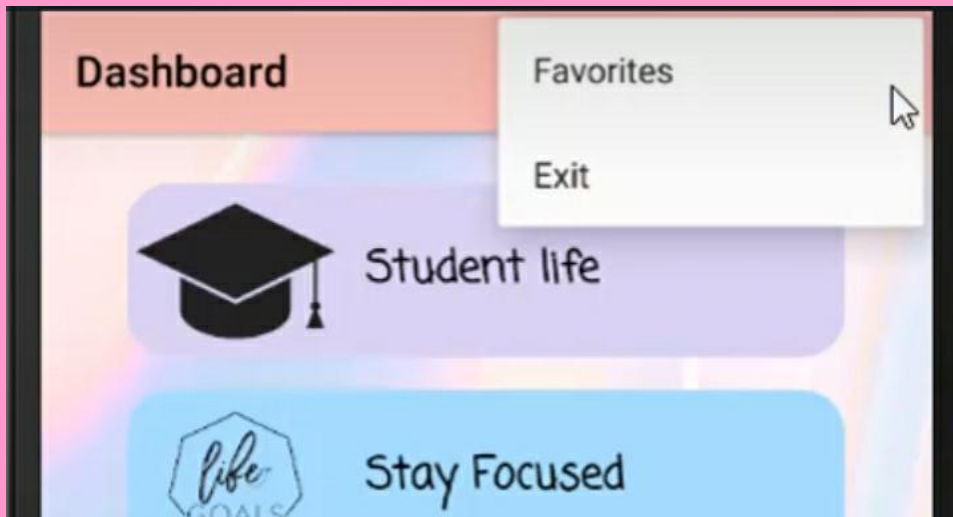

A pager viewer is used to display quotes; swipe left to view next quote.

You can use the heart option to put your favorite quotes in the favorite's tab and access it easily

The navigation bar is added to help you identify where in the app your location is.
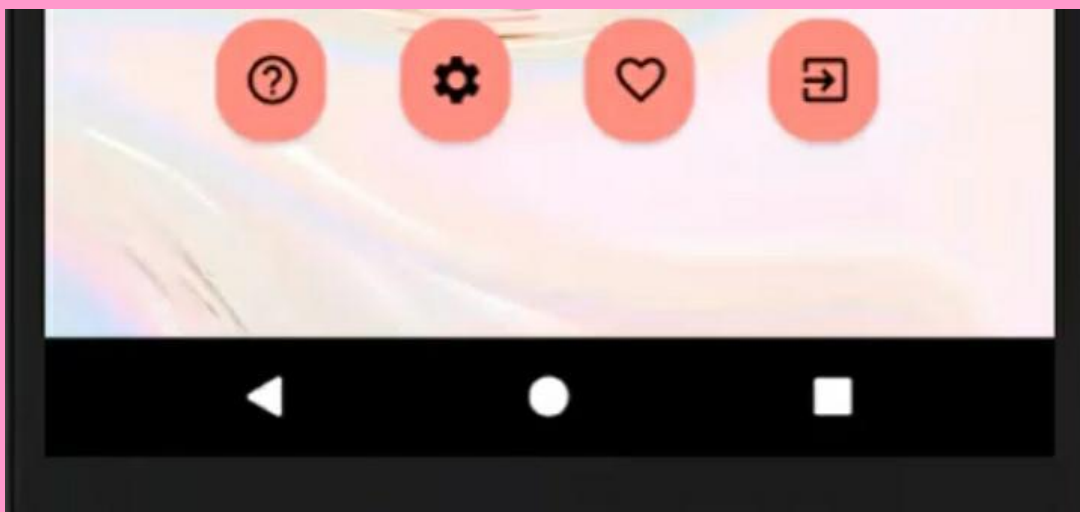

The 3 dots is added for the purpose of new possible feature we may add while making developments to the application.

The Help, setting, exit and favorite tabs are added as buttons to help users access and take advantage of them easily.

The exit option will simply close the app.

The help option is intended to describe the features to contribute in using the application.

The setting option currently covers only one option. It helps user customize the notifications they are receiving as well as the number of notification per day. The changing colors and so many other features are planned to be added on next increments.
